## *Intuitive Readings*

We all have spiritual support available to us. For many years, I have been receiving spiritually guided psychic intuitive messages for others. I offer the benefit of this divine gift from God to those who seek such guidance. Insights provided may assist you with addressing certain life circumstances, problems, and difficult people or situations. Clients have reported enhanced understanding of:

- Underlying personality and motivations of people in their life,
- Insights into resolutions of personal situations, and
- Options for future choices.

Depending on the individual's needs, the messages may offer information on:

- ♦ Relationships
- ♦ Business
- ♦ Spiritual and personal development
- ♦ Links between physical discomforts and emotional or mental issues

Confidential readings are done in person or by phone. References are available on request. I cannot predict the form or content of messages, or guarantee a particular outcome from a reading. If I do not make a connection, there will be no charge.

### *Serving as a Medium*

For those seeking communication with loved ones who have passed on, these communications can and often do occur, but are not guaranteed.
